## ADVANTAGES OF THE DOUBLE DEGREE PROGRAM

### CZECH REPUBLIC + UNITED STATES OF AMERICA

■ Double Degree programs are a unique opportunity to get European and American education in just three years. Education on different continents, internships around the world, exploring of European and American culture – all these you will find in an exclusive Double Degree program.

■ Double Degree is your chance to spend the best student years on two different continents, to learn at least two foreign languages (Czech and English), and to significantly increase your chances of employment in the leading companies in the world by gaining practical knowledge about your future profession.

■ The other benefit of a Double Degree program is a double bachelor major. The specializations “Business Administration” and “Arts in Business Administration” allow graduates to expand their choices in the search for future work and to become a high-level specialist in a short time.

■ The first two years of study the student will spend in the Czech Republic studying “Business Administration” in the European program in English language. Classes consist of seminars, lectures and practical tasks. Practical tasks are an opportunity to participate in joint projects of large corporations, such as Skoda, Johnson and Johnson, Bayer, Erstegroup and others. The Czech University of Life Sciences provides an excellent opportunity for its students to develop their own project and to present it at start-up exhibitions, thereby making future investors interested in their business.

■ The Czech University of Life Sciences provides the opportunity for its students to travel and study for six months in other countries in student exchange programs. This is another advantage of studying abroad – the university itself pays for internships and studies.

■ The Faculty of Economics of the Czech University of Life Sciences offers its students the opportunity to obtain various certificates, such as, for example, TOEIC (certification in the field of knowledge of business English). Also the university helps its students to create its own entrepreneurial projects through the PointOne Hub business incubator.

■ The third year of study takes place in the United States, in the city of Irvine, California, a suburb of Los Angeles. Agriculture, oil production and refining, and information technology are the most important sectors of the state economy. Los Angeles is considered to be the world center of entertainment industry in the field of cinema, theater, music, literature and television.

■ Westcliff University focuses its students on practice, on modern concepts of market and economy, teaching them what is relevant at the moment. Throughout the course of study, each student can take an active part in trainings and internships from the university.

■ The advantage of a Double Degree program is the ability to save time and money, the opportunity to live on different continents and gain theoretical and practical knowledge in two prestigious universities in the world. This is a program for successful, adventurous and self-confident, for those who care about their present and invest in their future.

■ Admission requirements:

- complete secondary education and school diploma;
- certificate IELTS 5.0.

## Prague, Czech Republic

*The best place to study and live.*

Prague is the most proper city for student life. In addition to beautiful architecture, rich history and cultural heritage, Prague is ideally suited to the student's rhythm of life.

Prague and the Czech Republic are among the top ten EU countries in terms of comfort and perspectives in education sector. According to the Global Peace Index, Prague ranks 7th in terms of security in the world.

Education in Prague is more accessible in comparison with other EU countries. A plus are also the leading universities of the country, which allow students to undergo internships in global corporations with the possibility of employment, as well as to study for exchange programs for free.

Prague is the cultural center of Europe. The largest international festivals and exhibitions, writers' forums, theater shows and educational conferences are held here. Many American and European films were filmed in Prague thanks to its unique medieval architecture that serves as a great atmosphere for the cinema. Many international students choose to study in Prague because of their future prospects in international business.

Prague is an opportunity to get closer to the European mentality, expand your horizons and discover your potential, receiving a quality European education and a successful start to the future.

## Irvine, California, USA

*The best place to build a career.*

Irvine is located in Orange County, California in the suburbs of Los Angeles, the largest industrial and economic center of the Western United States.

Irvine has a high level of school education and is in fourth place among US cities in terms of living standards. In 2011, Businessweek ranked Irvine in 5th place among the best cities in the United States. Irvine is in fourth place in terms of security in the country, among cities with a population of over 200,000 people. The average income for 2018 is \$ 40,000 / year. Irvine also has the lowest unemployment rate among other cities in the state.

Irvine is located in one of the largest and sunniest states in California. California is the richest and most populated US state, 79 billionaires of the world from the Forbes list live here.

The important economic sectors of the state are: the film industry, show business, oil production, innovative and information technologies and agriculture. It is in this state that the world famous Hollywood is located, the famous ocean beaches of Santa Monica and Malibu, the Dolby Theater, which hosts the annual Oscars.

Living in Irvine is an amazing opportunity to experience the atmosphere of American films, to plunge into a new culture, to get high-quality knowledge and to build a dream career!
